“To be the best in all that we do, completely focused on our business, ensuring the best products and services to our customers, a relationship of trust with our suppliers, profitability for our shareholders and the opportunity of a better future for all of our team members.” – JBS mission

A MESSAGE FROM THE PRESIDENT

JBS is a company that, since its founding in 1953, has been comprised of people who share the same values and are engaged in the same mission.

We believe that things are achieved through hard work, by people who are passionate about what they do and dedicated to being the best in all that we do.

Over the past 65 years, there has not been a single day that was not a challenging day. Due to the efforts of our 235,000 team members, we have had the capacity to transform challenges into opportunities and overcome any obstacle in front of us.

JBS has qualities that make it unique. First, the value of our people. We have a spectacular team that is dedicated and highly committed, and which, in tough times, always chose the team over the individual. Second, our team is led by experts that are well-recognized by the market, who have the autonomy to lead our different businesses.

In 2017, we ended another year with solid, consistent results that demonstrate our capacity to overcome challenges. The determination and discipline of our team were essential in achieving one of the best operational results in our history. 2017 adjusted net income was R\$2.1 billion, while reported net income was R\$534.2 million, 128.7% higher than 2016. Our consolidated sales reached R\$163.2 billion, with an EBITDA of R\$13.4 billion, which represents an increase of 18.9% over the previous year, and an EBITDA margin of 8.2%.

We fulfilled our commitment to reduce leverage, achieving 3.38x (net debt/EBITDA) – the lowest in our sector in Brazil – in addition to recording a total liquidity higher than our short-term debt.

This is the result of JBS's presence in different markets and wide portfolio of products provided to more than 350,000 customers worldwide. Quality and service have always been priorities for our company. We focus each and every day on achieving a standard of excellence in food safety and innovation, while providing the best service to our customers.

If we were able to grow over the past 65 years, it is only due to the trust we have from our suppliers. The commitment to produce what is best is derived from the mutual respect we share with our partners. Working in partnership, we produce products of the highest quality.

We also made important steps to improve transparency in 2017. We aim to establish an industry standard for compliance. To accomplish this, we established a Compliance Department that acts independently, reports directly to the Board of Directors and is led by the newly-appointed Global Head of Compliance. We also implemented the “Always Do it Right” compliance program to consolidate all of our compliance initiatives. To ensure a culture of compliance is deeply-rooted in our company, we provided compliance and ethics training to all leadership and established a new whistleblower hotline, the JBS Ethical Line. In January of this year, Transparency International, an NGO that analyzes anticorruption programs and the level of corporate transparency in the 100 largest Brazilian companies, provided JBS with an 8.1 “high score,” versus a national average score for all other companies of 5.7.

We believe that JBS' commitment to sustainability will ensure the Company's future. This is reflected in the progress achieved in projects addressing environmental preservation and in the external recognition of our efforts, including certification from CDP (Carbon Disclosure Project), a global entity dedicated to analyzing climate change processes. Our programs to fight against deforestation and to manage water efficiently are the most developed in the sector. We also created an Animal Well-Being Committee that has the responsibility to establish guidelines to prioritize the proper treatment of the animals under our care.

We ended 2017 stronger and more united. I am very proud of everything that we are building and even more confident in our future. To those who have supported us throughout our history and to those who are a part of it, thank you very much.

José Batista Sobrinho

BUSINESS UNITS 2017 AND 4Q17

Seara

In 4Q17, Seara's net revenue totaled R\$4,474.6 million, which represents a 4.5% decrease in relation to 4Q16, mainly due to lower volumes, notably in fresh poultry, both domestically and internationally, and in pork exports, which were impacted by the temporary ban Russia imposed on Brazilian pork. It is important to highlight the positive performance of holiday products, which posted a higher profitability in comparison to the previous year. In 2017, net revenue was R\$17,473.1 million, a 3.8% reduction compared to 2016, reflecting lower fresh poultry revenues, partially compensated by fresh pork, which sales increased in both markets.

Throughout the year, Seara continued to consistently execute its strategy, which pillars include a focus on profitability, consumer preference and the expansion of its consumer base, both direct and indirect. In 2017, the indirect distribution channel grew by 28%. Additionally, Seara continued to invest in innovation and in the launch of new products (94 SKUs during last year), and also evolved significantly for the past few years in repurchase rate, which grew from nearly 62% in 2014 to approximately 78% in 2017, and in presence in Brazilian homes, which increased from around 61% in 2014 to 76% in 2017.

Seara EBITDA in 4Q17 was R\$488.4 million, 63.4% higher than 4Q16, due to an increase in gross margin, which was favored by lower raw material costs, especially grains. EBITDA margin in the quarter was 10.9%, compared with 6.4% in 4Q16. For the year, Seara presented an EBITDA of R\$1,568.7 million, a decrease of 1.7%, with EBITDA margin of 9.0% compared with 8.8% in 2016.

BUSINESS UNITS 2017 AND 4Q17

JBS Brazil (including Leather and New Businesses)

JBS Brazil 4Q17 net revenue was R\$5,918.6 million, a 18.1% reduction over 4Q16. For the year, net revenue totaled R\$23,446.9 million, a 16.9% decrease from 2016, reflecting the sale of beef operations in Argentina, Paraguay and Uruguay, as well as the 14.0% reduction in the number of animals processed in Brazil. It is important to highlight that the Company has been increasing capacity utilization, which resulted in a 6.9% increase in the number of animals processes during the quarter compared to the 3Q17.

Despite the lower volumes of animals slaughtered in 2017, the Company has been focusing on developing its distribution in relevant markets and on new sales channels in Brazil, while also entering into strategic partnerships with key customers and improving its portfolio with a more profitable mix, which includes the launching of new products and brands, such as “1953”, launched last year in the premium category. These efforts reflected a 6.1% increase in fresh beef sales prices in comparison to 2016.

EBITDA in 4Q17 was R\$308.6 million negative, with negative EBITDA margin of 5.2%. For the year, EBITDA totaled R\$84.3 million, a 95% reduction when compared to 2016, with an EBITDA margin of 0.4%. Results from this business unit were impacted by the above-mentioned reduction in the number of animals processed, by the maintenance of the Company's operational structure, by a significant deterioration of the leather cycle in 2017, which has been showing signs of recovery in 2018, and by non-recurring expenses.

BUSINESS UNITS 2017 AND 4Q17

JBS USA Beef (including Australia and Canada)

JBS USA Beef reported net revenue of US\$5.7 billion 4Q17, 6.6% higher than 4Q16 and US\$21,663.6 million for FY 2017, an increase of 5.4% compared with 2016. This performance was achieved, in part, as the result of volume and price increases.

EBITDA in 4Q17 was US\$395.9 million, and the EBITDA margin was 7.0%. In FY 2017, EBITDA was US\$1,308.6 million, an increase of 177.2%. The EBITDA margin increased from 2.3% in 2016 to 6.0% in 2017.

The strengthening of the North America economy, notably in the United States, and the continued reduction in unemployment contributed to an increase in demand in the domestic market and an increase in beef prices in the region. Additionally, the increased availability of cattle, coupled with stable production capacity also contributed to an increase in the industry's margins. It is important to highlight that in 2017, JBS USA exports significantly exceeded those reported in 2016, due to increased volumes and higher margins. In addition to more favorable market conditions, improvements in operational efficiencies and a differentiated strategy of commercial relationships also contributed to the strong performance.

In Australia, the lack of availability of cattle affected the Company's performance. Although performance was positive in 2017, it was below that reported in 2016. On a positive note, Primo Smallgoods, which operates in the increasingly attractive prepared foods segment, produced encouragingly positive results.

BUSINESS UNITS 2017 AND 4Q17

JBS USA Pork

JBS USA Pork reported net revenue of US\$6 billion in 4Q17, an increase of 16.4% compared with 4Q16. For FY 2017, net revenue totaled US\$6.2 billion, 16.2% higher than 2016. The increase was driven by growth in the demand for pork in domestic and international markets, as well as the expansion of the business in the US through the acquisition of Plumrose USA in May 2017.

EBITDA was US\$186.9 million in 4Q17, 9.0% higher than 4Q16. The EBITDA margin was 11.7%. In 2017, EBITDA was US\$779.9 million and, despite the increase in competitiveness in the domestic market, EBITDA margin increased from 11.5% in 2016 to 12.6% in 2017.

The excellent performance reported by JBS USA Pork, which was also the best result achieved by any US-based pork operation in the United States, is a testament to the effectiveness of the managerial team, their unrelenting focus on operational efficiencies, their decision to diversify into higher value-added products and the strengthening of commercial partnerships with key customers. Performance has also been positively affected by the smooth integration of Plumrose USA, acquired in May 2017, which has enabled JBS to increase its presence in the prepared foods segment.

BUSINESS UNITS 2017 AND 4Q17

Pilgrim's Pride Corporation - "PPC"

Pilgrim's Pride recorded net revenue of US\$2,742.4 million in 4Q17, a 15.7% increase in relation to 4Q16, in a comparison that includes Moy Park in both quarters. In 2017, net revenue totaled US\$10,767.9 million, which corresponds to an increase of 9.0% compared with 2016.

Net revenue from US operations increased by 18% when compared with 4Q16, due to higher prices and synergies from the integration of GNP above expectations. In 2017, revenue grew by 11.6% in the country.

In Mexico, net revenue increased by 8.0% in the quarter, due to higher volumes. In the year, revenue increased by 5.4%

In Europe, net revenue increased by 12.9%, due to higher volumes. In 2017, revenue grew by 2.5%.

EBITDA was US\$241.0 million, a 17.3% increase in relation to 4Q16, due to a solid performance of PPC's operations throughout the world, partially offset by higher production costs and logistic challenges from the natural events that occurred in the quarter. EBITDA margin in 4Q17 was 8.8%. In the year, EBITDA was US\$1,388 million, with EBITDA margin increasing from 10.4% in 2016 to 12.9% in 2017.

PPC concluded several strategic investments that contributed to its position as a leader in the production of organic poultry. Additionally, its operations are focused on the strengthening of relationships with key costumers, differentiation in its portfolio of brands and products, and on the improvement of its margins profile.

PPC net income was US\$134.3 million, which corresponds to an EPS of US\$0.54 in the quarter. In the year, net income totaled US\$694.6 million, with an EPS of US\$2.79.

We make statements about future events that are subject to risks and uncertainties. Such statements are based on the beliefs and assumptions of our Management and information to which the Company currently has access. Statements about future events include information about our current intentions, beliefs or expectations, as well as those of the members of the Company's Board of Directors and Officers.

Disclaimers with respect to forward-looking statements and information also include information on possible or presumed operating results, as well as statements that are preceded, followed or that include the words "believe," "may," "will," "continue," "expects," "predicts," "intends," "plans," "estimates," or similar expressions.

Forward-looking statements and information are not guarantees of performance. They involve risks, uncertainties and assumptions because they refer to future events, depending, therefore, on circumstances that may or may not occur. Future results and shareholder value creation may differ materially from those expressed or implied by the forward-looking statements. Many of the factors that will determine these results and values are beyond our ability to control or predict.
